SUMMARY

Front-end developer with 2 years of professional experience building client websites and web apps with React, Next.js, JavaScript and Tailwind CSS. I built an interactive property map for a real estate client, shipped Next.js portals with 95+ Lighthouse scores, and worked with REST APIs, Docker and Git in Agile sprints. I also bring integration work (Boomi, SFTP, SSO) and a year running a sales store on my own, so I am comfortable working directly with clients.

SKILLS

- **Front-end:** JavaScript (ES6+), TypeScript, React, Next.js, HTML5, CSS3, SCSS/Sass, Tailwind CSS, Bootstrap 5, jQuery, Jinja2
- **Web:** Responsive and mobile-first design, REST API integration, Fetch/Axios, JSON, SSR, web performance (Core Web Vitals, Lighthouse), cross-browser testing
- **Tools:** Git, GitHub, Docker, Linux (Ubuntu/Debian), Vercel, VS Code, Chrome DevTools, Postman, Copilot / Cursor, Agile/Scrum, code reviews
- **Integration:** Boomi iPaaS, SFTP, PGP encryption, SSH key management, SAML single sign-on
- **Business:** SAP, CRM, Google Workspace (Sheets, Drive), client offers and quotes

EXPERIENCE

Sales Engineer | Romstal Imex

Brasov, Romania | Oct 2025 - Sep 2026

- Ran a Romstal store on my own, responsible for sales, stock, logistics and daily operations.
- Advised customers and prepared offers and quotes based on their technical needs.
- Managed stock, orders and transports in SAP and internal tools; tracked customers in the CRM.
- Kept sales and stock reports in Google Sheets and Drive.

Connectivity Engineer | Darwin Technologies Romania

Romania | Jul 2025 - Oct 2025

- Built and maintained integrations on the Boomi iPaaS platform connecting several enterprise systems.
- Set up secure file transfers using SFTP, PGP encryption and SSH key rotation.
- Configured SAML-based single sign-on (SSO) across services.

Junior Front-End Developer | Ariminum Remin SRL

Cluj-Napoca, Romania | Apr 2023 - Apr 2025

- Built and maintained public websites and client portals for real estate and construction companies.
- Designed and built an interactive map for a real estate agency: users browse regions and see property listings in real time, with markers and popups loaded from REST APIs and no page reloads. The client reported better usability and more leads.
- Developed responsive portals in React, Next.js and Tailwind CSS with server-side rendering, deployed on Vercel and kept at 95+ Google Lighthouse scores (performance, accessibility, best practices, SEO).
- Maintained and refactored features built with JavaScript, jQuery, Bootstrap, SCSS and Jinja2 templates; fixed bugs and cross-browser issues.
- Built reusable Bootstrap/SCSS UI kits (filter sidebars, modals, responsive navigation); worked in Docker on Linux with Git, Agile sprints and code reviews.

Technical Support Representative (AOL account) | CGS Romania

Brasov, Romania | Nov 2016 - Apr 2017

- Helped AOL customers diagnose and fix technical problems with their accounts and services.
- Explained technical solutions in plain language to non-technical users.

EDUCATION AND CERTIFICATION

Assistant Programmer (Programator Ajutor), accredited professional qualification | IT School S.R.L.

Sep 2024 - Mar 2025 | Certified by the Romanian Ministry of Labor and Ministry of Education (code RNCP RO/04/0613/670) | Grade 8.37/10 | Algorithms, OOP, web architecture, databases

Bachelor's degree in Computer Science | Transilvania University of Brasov

2016 - 2019
